Proposition 65 Compliance Statement

Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, is a California state law requiring businesses to inform Californians about significant chemical exposures that may cause cancer, birth defects, or reproductive harm. This law prohibits businesses from knowingly and intentionally exposing individuals to such chemicals without providing clear and reasonable warnings. The complete list of chemicals covered by Proposition 65 can be accessed at this link.

Magnet Schultz of America's Commitment

Magnet Schultz of America specializes in the custom manufacturing of electro-magnetic and hydraulic solenoids, including pneumatic and hydraulic valve applications. Some materials specified by our customers or used in our manufacturing processes may contain chemicals listed under Proposition 65. These chemicals might be present in the materials themselves or required during manufacturing.

Safety Recommendations

To ensure safety, we strongly recommend thorough handwashing both before and after handling any of our components. We also advocate for the responsible recycling of these components at the end of their intended life, in compliance with relevant local and state laws.

Product Usage Warning

It is crucial to note that our products are not intended for consumption and should not be ingested by humans or wildlife.

Customer Responsibilities

The purchasers of our products are responsible for understanding and communicating any additional Proposition 65 warnings to their end users, customers, or assemblers. This responsibility includes determining the appropriateness of the materials specified and any other relevant considerations.

Disclaimer

Our information regarding Proposition 65 compliance is based on data provided by our material suppliers. Magnet Schultz of America has not independently verified this information through its own analysis or testing.

Magnet Schultz of America does not affix Proposition 65 warnings to its products.

Compliance with Proposition 65, including any required warnings, should be assessed and managed by the purchaser based on the final application and use of the products.
